**Fabian Svensson Lundmark**

A project exploring the possibilities to reduce the waste surrounding the falafel roll. Replacing the existing solution (wrapping paper, plastic bag and/or aluminium foil, plastic bag) with a tailored piece of tableware will transform the linear character of the existing system towards a more cyclic one. The plate cup is made of 5 mm slip casted porcelain to be washed and reused within the shop. Inspiration was taken from famous landmarks in Malmö and observations on how we eat and behave. Äta här - another way to serve the falafel roll.
