SYNC - Modular HiFi System

Aviv Snir

mar.avivs@gmail.com

Transform. Amplify. Reimagine sound with Sync, a HiFi system crafted from salvaged forklift parts. Inspired by Kintsugi, the Japanese philosophy, imperfections become beauty. This modular marvel, born from a collaboration with Toyota Material Handling Sweden and sponsored

by iril, a Copenhagen-based audio systems design studio, fuses old and new, featuring speakers, a turntable, and a volume console.
